SHRADDHA CHAUHAN

682-389-9848 — shraddhachauhan261999@gmail.com — LinkedIn — GitHub — Portfolio

SUMMARY

Data Analyst with 2+ years of experience delivering client-focused analytics, reporting, and insights to support data-driven decision-making. Strong expertise in Microsoft Excel (pivot tables, formulas, charts), data cleaning, validation, and dashboard development. Proven ability to manage multiple priorities, collaborate cross-functionally, and clearly communicate actionable insights to stakeholders. Passionate about improving client experience, engagement, and data transparency.

EDUCATION

The University of Texas at Arlington — Arlington, TX
Master of Science in Business Analytics, GPA: 3.91/4.0 — Dec 2025

SRM Institute of Science and Technology — Chennai, India
Bachelor of Technology in Electronics and Communication Engineering — May 2021

EXPERIENCE

Junior Data Analyst — Feb 2023 – Oct 2023
Capgemini — *India*

- Conducted comprehensive analysis of large datasets to identify trends, patterns, and anomalies supporting business and client reporting decisions.
- Performed data cleaning, validation, and quality checks using SQL, Python, and Excel to ensure accuracy, completeness, and reliability of insights.
- Built and maintained interactive Excel and Power BI dashboards, enabling real-time performance tracking and improving reporting efficiency by 30%.
- Delivered ad-hoc analysis and data support to Finance, IT, and Product teams, supporting strategic and operational decision-making.
- Documented analytical findings and communicated insights clearly to stakeholders, improving transparency and trust in reporting outputs.
- Collaborated cross-functionally to address client data requirements, ensuring alignment with service expectations and delivery timelines.
- Supported client engagement metrics analysis, identifying opportunities to improve data usage and reporting adoption.

Data Analyst Intern — June 2022 – Dec 2022
Abhyaz — *Remote*

- Assisted in gathering business requirements and translating them into data models and analytics workflows.
- Supported development of multi-dimensional dashboards for campaign and inventory analytics, improving planning accuracy by 20%.
- Worked with cross-functional stakeholders to align data outputs with business goals and improve data usability.
- Contributed to documentation and reporting processes that improved data clarity and stakeholder adoption.

Graduate Teaching Assistant - Business Analytics & Information Systems — Jan 2025 – Dec 2025
The University of Texas at Arlington — *Arlington, TX*

- Supported analytics education for 300+ students, emphasizing data accuracy, reporting, visualization, and insight communication.
- Orchestrated SQL querying, database design, and data warehousing labs and assignments for 160+ students, achieving 95% positive feedback on clarity and relevance to industry applications.
- Assisted faculty in curriculum development related to analytics, data management, and business insights.

TECHNICAL SKILLS

Data Tools & Languages: Python (Pandas, NumPy, Scikit-Learn, Matplotlib), Advanced SQL (Window Functions, Stored Procedures)
BI & Visualization: Tableau, Power BI (DAX, Power Query), Advanced Excel (VBA), SharePoint, KPI Dashboarding, Data Storytelling
Data Engineering/ETL: ETL Development, Data Modeling (Star/Snowflake Schema), Data Warehousing, Apache Spark, Hadoop, Alteryx
Core Analytics: Data Cleaning & Wrangling, Statistical Analysis, A/B Testing, Forecasting, Ad-hoc analysis, Anomaly Detection
Client & Business Skills: Stakeholder Communication, Client Success Support, Cross-Functional Collaboration, Documentation & Reporting
AI & Digital Tools: Generative AI (RAG exposure), LLMs, Cloud (AWS), Analytics Automation

PROJECTS

Holos Agri Assistant (AI Chatbot) — *FastAPI, LangChain, FAISS, OpenAI, Python, AWS*

- Designed and deployed an AI-powered RAG (Retrieval-Augmented Generation) solution to enable real-time analytics and knowledge retrieval across structured and unstructured data.
- Built data ingestion, embedding, and retrieval pipelines to improve data accessibility and insight generation.
- Gained hands-on exposure to Generative AI, AI copilots, and digital analytics enablement concepts.

HR Attrition Dashboard — *Power BI, DAX, Power Query*

- Collected and prepared HR datasets through data scraping and Power Query transformations, then analyzed 1,400+ employees records using DAX, KPIs, and drill-down visuals to uncover attrition patterns.
- Highlighted overtime-driven attrition and recommended targeted retention strategies, contributing to the development of 2 new HR policies and informing HR leadership during monthly stakeholder presentations.

A/B Testing Analysis – Landing Page Conversion Experiment — *Pandas, Seaborn, Scipy, Statsmodels*

- Conducted A/B testing and conversion analysis to compare user behavior across variants, identifying performance trends and actionable insights to support data-driven decisions.
- Cleaned, validated, and analyzed experiment data using Excel and Python, clearly documenting results and communicating recommendations to stakeholders for optimization.

HONORS & CERTIFICATIONS

AI Aviation Chatbot (2nd Prize) - UTA Symposium; Developed an AI-powered aviation chatbot using Python/Streamlit, automating analyst research and saving 60% of time while enabling strategic work reallocation.
Selected Representative – UTA College of Business; recognized among top 10 presenters for global marketing initiative.
Certifications: Google Data Analytics, Tableau Desktop Specialist, SAP Business Analyst
